contemporary landscape

THE PLEASURE OF OUTDOOR LIVING

Green spaces to be conquered, designs in perfect harmony with their surroundings. Technology and nature, ideas and passion, earth and sky. Beneath the sun and the stars, there's a whole new world to be discovered.

Contemporary Landscape

PRIVATE GARDENS

PUBLIC SPACES

MIRAGE® EVO_2/E™

The first 20 mm ($\frac{3}{4}$ ") thick porcelain stoneware produced and sold as a complete outdoor and garden package. **A complete system of floor coverings and special pieces for public and residential outdoor spaces**, presented in a single, attractive and high-performing range. A new ceramic concept offering a **wide range of different sizes, colours, finishes and laying styles**.

SWIMMING POOLS

A blending of advantages

MIRAGE® PORCELAIN STONEWARE

It is a material with high technical and visual performance. Slabs obtained by pressing, followed by vitrification: this process involves the total fusion into a single material made from natural raw materials (sand, quartz, feldspars, kaolin, clays and natural colourants) which, fired at temperatures above 1230°C (2240°F), are transformed into **a product with exceptional hardness, practically no absorption at all and unmatched mechanical characteristics.** Mirage® porcelain stoneware is eco-compatible and Ecolabel-certified.

Resistant

NORM FRIENDLY.

Mirage® EVO_2/E™ Porcelain Stoneware **fully complies with current statutory safety requirements for public and private settings**, above all in terms of slipping, deep abrasion and fire resistance.

to thermal shock

Because it is 100% frost-free and its properties remain unaltered at temperatures of -50°C to +60°C (-120°F to +140°F).

to loads

Because every slab can withstand loads of over 1000 kg (2200 lb).

to chemical aggression

Because it totally resists acids, chemical agents, salt and verdigris.

to stains

Because it remains unaltered over time, mould and moss and dark smudges cannot get a hold.

RESISTANT,
PRACTICAL,
ECOLOGICAL
AND STYLISH.

Easier

PRACTICAL AND FUNCTIONAL.

With EVO_2/E™ you can live your outdoors in full **freedom and safety**: a practical, functional product for any outdoor surface.

to clean

Because it requires no special or seasonal treatment and can be washed easily, even using a pressure washer.

to lay

Because it is a squared, single work-size, which uses the same laying systems as other common outdoor materials.

to remove

Because it is removable, serviceable and reusable, weighing just 17 kg per 60x60 cm slabs (37 lb per 24"x24" slabs) (excluding laying on screed with glue).

for you

Because it is non-slip thanks to the structured surface.

LIVE A
THOUGHTLESS
OUTDOOR
EXPERIENCE.

Respectful of the environment

A GREEN COMPANY.

Mirage® subscribes to IPPC (Integrated Pollution Prevention and Control) Protocols, certifying its compliance with strict parameters and the use of the best techniques available in its industrial processes, to reduce pollutant emissions and energy consumption.

Ecolabel

EVO_2/ETM collections guarantee low environmental impact throughout their life cycle, in compliance with the strictest European ecological and technical parameters.

Leed Compliant

All the slabs in the Mirage® catalogue are LEED compliant and help to obtain up to 10 LEED credits, depending on colour and use.

Made in Italy

All Mirage® tiles are designed and produced entirely in Italy, an element which today more than ever bears witness to the company's desire to promote the quality and values of Italian-made goods.

HY-PRO²⁴

The Mirage® treatment, available on request, with titanium dioxide, enhanced with active metal elements, makes the material photocatalytic, anti-pollutant, hygienic and anti-bacterial, 24 hours a day.

A CHOICE THAT HELPS THE ENVIRONMENT

Contemporary Landscape

MORE DESIGN, ALSO FOR LARGE AREAS.
The **flatness and size precision of the slabs**, their visual impact and level of finishing are excellent even for large areas, such as street furnishing projects.

attention to detail

Because it has a range of highly attractive solutions, with special pieces for different uses and to create innovative surfaces.

wide range

Because you can choose from a range of over 40 interpretations of stone, wood and concrete.

total coordination

Because you can create fully coordinated interiors and exteriors, in different colours.

versatility

Because you can use a range of laying systems for many specific solutions, in gardens, parks, terraces, courtyards and swimming pools.

**MAXIMIZE
YOUR
CREATIVITY.**

For exterior designers.

ARE YOU AN ARCHITECT, LANDSCAPER, GARDENER OR EXTERIOR DESIGNER?

In creating **EVO_2/E™**, Mirage® has thought of you, and your need to offer safe and practical design products suited to any outdoor setting that are able to blend in perfectly with a range of indoor uses. Outdoor floorings, with the **Mirage®** guarantee: **an international company with over 40 years' experience in the sector, working in over 120 countries around the world.**

YOU CAN PROPOSE
INFINITE OUTDOOR
SOLUTIONS.

COORDINATED
WITH YOUR NEEDS,
ANYWHERE.

TERRACES, PATHS, GARDENS, PATIOS, SWIMMING POOLS.

Or stairways, walls and driveways ... for an outdoor living style that reaches right into the home, with **Mirage® indoor flooring coordinated with its outdoor ranges.** **EVO_2/E™** lets your ideas take shape, with total flexibility and infinite design continuity. To express your best potential in locations packed with different levels, special situations and innovative spaces to furnish.

The size of your ideas

20MM (3/4") THICK - 30MM (1 1/4") THICK

Many different sizes, square and modular, to mould your design to fit any surface. **Mirage® EVO_2/E™** has fitted in with your needs, supplying all the sizes you need to tile your outdoor setting with full design coherence, for walls and floors.

The **ideal** laying system for every need.

GRAVEL, GRASS, SCREED WITH GLUE OR RAISED FLOORING?

The **EVO_2/E™ Mirage®** project makes available a set of laying solutions suited to any outdoor ground or surface, to offer full laying versatility. Moreover, whatever the surface to be laid on, **EVO_2/E™** porcelain stoneware **uses the same laying systems as ordinary outdoor materials.**

NOTE

IF THE APPLICATION OF THE 20 MM SLABS FORESEES THE CERAMIC PRODUCT USED IN STRUCTURAL INSTALLATIONS, THE PROJECT ENGINEER AND/OR CUSTOMER MUST CAREFULLY ASSESS THE PROJECT REQUIREMENTS WITH REGARD TO THE TECHNICAL SPECIFICATIONS OF THE SLABS. TO PREVENT THE RISK OF DAMAGE OR INJURY, THE MANUFACTURER RECOMMENDS:

- WITH REGARD TO A RAISED FLOOR INSTALLATION A CERAMIC SLAB MAY FRACTURE ON IMPACT IF A HEAVY OBJECT FALLS ON IT FROM ANY SIGNIFICANT HEIGHT. THEREFORE THE MANUFACTURER RECOMMENDS TO CHECK THE SPECIFIC INTENDED USE BEFORE STARTING THE INSTALLATION AND TO FOLLOW TABLE FOR RAISED INSTALLATION PROVIDED BELOW. IN CERTAIN CONDITIONS, REINFORCING MUST BE APPLIED ON THE BACK OF THE SLABS (MESH PLUS OR GALVANIZED STEEL SHEET) SUPPLIED AND APPLIED BY THE MANUFACTURER;
- WITH REFERENCE TO ANY DRY INSTALLATION SYSTEM OF FLOORING ABOVE THE GROUND LEVEL, THE MANUFACTURER RECOMMENDS TO COMPLY WITH LOCAL REGULATIONS AND CONDITIONS OF USE WITH REGARD TO WIND-LOAD, LOADBEARING, SEISMIC EVENTS, ETC.

FAILURE TO COMPLY WITH THESE RECOMMENDATIONS MAY LEAD TO IMPROPER USE OF THE PRODUCT AND COULD CAUSE SERIOUS DAMAGE OR INJURY.

MANY LAYING
SYSTEMS, A
UNIQUE END
RESULT.

INSTALLATION ON GRASS

STEPPING STONE /
PAS JAPONAIS

EASY TO LAY
REMOVEABLE
REPOSITIONABLE

INSTALLATION ON GRASS

The ideal laying solution for creating walkways, barbecue areas and gazebos in the garden: by laying EVO_2/E™ slabs on the ground, you can preserve the underlying lawn, preventing it from being damaged by weights or heavy foot traffic. The range is also suitable for creating public and residential walkways and outdoor areas.

HOW TO LAY “JAPANESE STEPPING STONES”

To create a path pattern arranging the slabs in the “Japanese stepping stone” style, you need to calculate the number of steps needed to complete the path, then space the slabs at an equal distance along the route. To ensure perfect stability, dig down 5-8 cm (2”-3”), add fine gravel - size 3 to 6 mm (1/8” to 1/4”), and compact down before laying the slab. The slabs must not protrude above the lawn level, in order not to damage the lawnmower when cutting the grass.

The proposed diagrams and indications are purely indicative of the type of application: please refer to the specific regulations in force in your country in order to lay the floor to the highest technical standards.

For any information and/or suggestion concerning EVO_2/E™ laying systems installation, please refer to the specific manual EVO_2/E™.

INSTALLATION ON GRAVEL OR SAND

EASY TO LAY
REMOVEABLE
REPOSITIONABLE

INSTALLATION ON GRAVEL OR SAND

Laying on gravel ensures correct soil drainage, through the gaps between the slabs, allowing the water to drain off into the ground. This laying solution is ideal for projects where permanent floor laying is not possible.

For installation onto gravel ($\frac{1}{8}$ - $\frac{1}{4}$) we recommend the use of Mirage spacers as they provide the slabs with support and allow for planar surfaces. The transparency of the material makes them scarcely visible and they can be cut in order to create T-shaped spacers for straightforward installation patterns.

INSTALLATION ON GRAVEL

INSTALLATION ON SAND

The proposed diagrams and indications are purely indicative of the type of application: please refer to the specific regulations in force in your country in order to lay the floor to the highest technical standards.

For any information and/or suggestion concerning EVO_2/E™ laying systems installation, please refer to the specific manual EVO_2/E™.

ADHESIVE INSTALLATION

VEHICULAR FLOORS

ADHESIVE INSTALLATION

The ideal laying solution for outdoor driveways, car parks, garage ramps, as the laid surface is extremely resistant to both dynamic and concentrated loads. Expansion joints are required, and the gaps between the tiles must be filled with cement-based grout.

The proposed diagrams and indications are purely indicative of the type of application: please refer to the specific regulations in force in your country in order to lay the floor to the highest technical standards.

For any information and/or suggestion concerning EVO_2/E™ laying systems installation, please refer to the specific manual EVO_2/E™.

INSTALLATION ON RAISED PEDESTAL SYSTEM

EASY TO LAY
REMOVEABLE
REPOSITIONABLE
SERVICEABLE

INSTALLATION ON RAISED PEDESTAL SYSTEM

Installation on raised pedestal system exploits the conventional system of floating or raised floors. With this laying system, all the pipes and wiring systems laid beneath the tiled surface can be inspected at any time. It offers instant accessibility, simply by lifting and removing the slabs.

Installation on raised pedestal system is used mainly on large, regular surfaces, or above previous floors, provided these show no signs of infiltration. The open gaps between the slabs allow the rain water to drain off into the cavity created under the panels. Thus a flat, even floor is obtained, while the underlying waterproof layer will have the gradient required to drain off the rain water. The load-bearing structure is made of polypropylene feet with a large base and rounded edges, to prevent damage to the insulating layer. This solution allows for any underlying elements to be inspected and offers a practical passage for pipes and wiring.

RAISED PEDESTAL SYSTEM (FIXED SUPPORT)

RAISED PEDESTAL SYSTEM (ADJUSTABLE SUPPORT)

Note: For raised pedestal system please refer to the specific tab - see on page 42.

The proposed diagrams and indications are purely indicative of the type of application: please refer to the specific regulations in force in your country in order to lay the floor to the highest technical standards.

For any information and/or suggestion concerning EVO_2/E™ laying systems installation, please refer to the specific manual EVO_2/E™.

Note: For any detail and technical specification concerning the fiber mesh plus or the galvanized steel sheet, please contact Mirage®. Mirage® is responsible only if it supplies the whole system (tile + fiber mesh plus or galvanized sheet). Mirage® cannot be held responsible for reinforcing systems that has not supplied. In case of breakage, tile must be replaced immediately.

FIBER-MESH PLUS

GALVANIZED STEEL SHEET

To ensure drainage of the tread surface, appropriate transversal or longitudinal gradients should be included during levelling and compaction.
Please remember in any case that, in view of the distinctive advantages of porcelain stoneware, EVO_2/ E™ absorbs practically no water, which makes it highly frost-proof. This may lead to localised water pooling, mainly on the edges of the tiles, independently of the manner and quality of the laying. Laying is also recommended with a minimum gap of 3 mm (1/8").

INSTALLATION ON RAISED PEDESTAL SYSTEM

VERTICAL EDGE CLIP

The sure innovation to ‘finish off in style’

Designed to solve the common problem of many outdoor flooring systems, i.e. how to close off the edge when there is no perimeter wall. The **vertical edge clip** is an innovative system for closing off the outer edge of raised floors with an easy and elegant solution. The solution consists of two special stainless steel clips that are placed on top and underneath the base, creating a space with edges that grip onto the portion of flooring cut to size for the area to fill, and preventing any horizontal slippage of the slabs at the same time because of the block at the edge of the floor clip.

Bottom vertical edge clip
P021000420

Top vertical edge clip
P021000320

SLAB EDGE CLIP

The ideal combination of looks and functions

Designed to prevent any contact between the slab and the perimeter wall when fitting raised outdoor flooring, the **slab edge clip** is made entirely in stainless steel and has a system to absorb longitudinal and transversal dilation as well as providing a reliable grip, enabling an elegant, straight perimeter gap while giving the floor extra stability.

Gardens and public spaces?
We have thought of
everything.

SPECIFIC SOLUTIONS THAT MAKE THE DIFFERENCE.

When your ideas have to be turned into reality, it is not enough to be working with top quality materials. This is why **EVO_2/E™** makes available a series of solutions designed to respond to the most specific, advanced **garden** and **street furnishing** needs. Solutions designed to match your project perfectly, creating a functional design for tiling any element, letting your creativity run wild.

STYLE AND ELEGANCE FOR GARDENS.

Many **special pieces** to create perfect porcelain stoneware complements for your garden settings, leaving nothing to chance. For uncompromising **green comfort**.

DOUBLE SIDED SPECIAL TRIM: UNICO

SIZE 33x60 cm (13"x24") - 20 mm (3/4") THICK

Two installation needs, a single solution. UNICO, size 33x60 cm (13"x24"), is processed on both sides, on one side it has a rounded edge and on the other a square edge. An extremely versatile special piece, which can be used both as a step and as a special piece for swimming pools, with bullnose edge or straight edge, both coloured along the side. A highly attractive result, with all the excellent technical performance expected of Mirage® porcelain stoneware.

UNICO

FUNCTIONALITY AND DESIGN FOR STREET FURNISHINGS.

Mirage® EVO_2/E™ offers a whole range of special solutions for public areas. Special pieces coordinated with the flooring, designed with a modular approach: so you can fit your design to small or large spaces. Practical solutions that simplify your work, ensuring top quality for the most important contracts.

FLOWER BOXES

Flower boxes, like the other furnishing elements, can be used in any laying pattern with 60x60 (24"x24") and 60x120 (24"x48") tiles, maintaining the required modularity.

BICYCLE RACKS

The bicycle rack is also designed with a modular approach, so that the elements can be combined together to create a continuous rack.

BED BORDERS

For finishing green areas in public spaces, the Curved Corner 15 and the Edge 15 were designed to create a wide range of different shapes.

BENCHES

The bench was designed to be fully modular, fitting in to laying patterns using 60x60 (24"x24") and 60x120 (24"x48") slabs, its design coordinated with the flooring slabs.

Swimming pool designs, a dive into the future.

VILLAS, HOTELS, WELLNESS CENTRES, HOLIDAY HOMES.

Whatever the location, **EVO_2/E™** is the most complete range of outdoor flooring for your swimming pool or sun deck, at the sea or in the mountains.

A range of slabs and special pieces designed for the swimming pool world, fully blending with your other outdoor décor and guaranteeing full coordination with 10 mm (3/8") interior ranges.

It also works perfectly with both types of edges: skimmers and overflow filter pools.

PLUNGE
INTO OUR
WORLD.

Porcelain stoneware: a safe choice.

ALLINED WITH YOUR DESIGN.

EVO_2/E™ swimming pool solutions are fully coordinated with the other outdoor ranges, in both design and all other intrinsic features. Because **Mirage®** is one of the few companies that uses the same material in the pool too: porcelain stoneware.

it does not deteriorate

Because EVO_2/E™ is resistant to water, rain, chlorine and saline water in salt-water pools.

it is non-slip

Because it has textured surfaces which can be walked on safely even when wet.

It doesn't change colour

Because it is fully resistant to frost, sun, mould, and requires no treatment. Washable also with a high pressure washer.

SRI tra 60% e 80%

Some colours have a solar reflectance index of between 60% and 80%, which means that the material has low heat absorption.

The Mirage® colours meeting the SRI parameter are shown in the collections area with this symbol

FOR ANY EDGE, THE IDEAL SOLUTION.

SKIMMER OR OVERFLOW?

With **EVO_2/E™** you can choose the best system for your pool, because special pieces are available to create unlimited, coordinated designs, with **a wide selection of edges and conduits.**

SKIMMER EDGE

This is the traditional system, where the water is 10-15 cm (4"-6") lower than the edge of the pool.

OVERFLOW EDGE

This is a deck-level overflow system, where the water flows over the edge of the pool and is collected in a conduit.

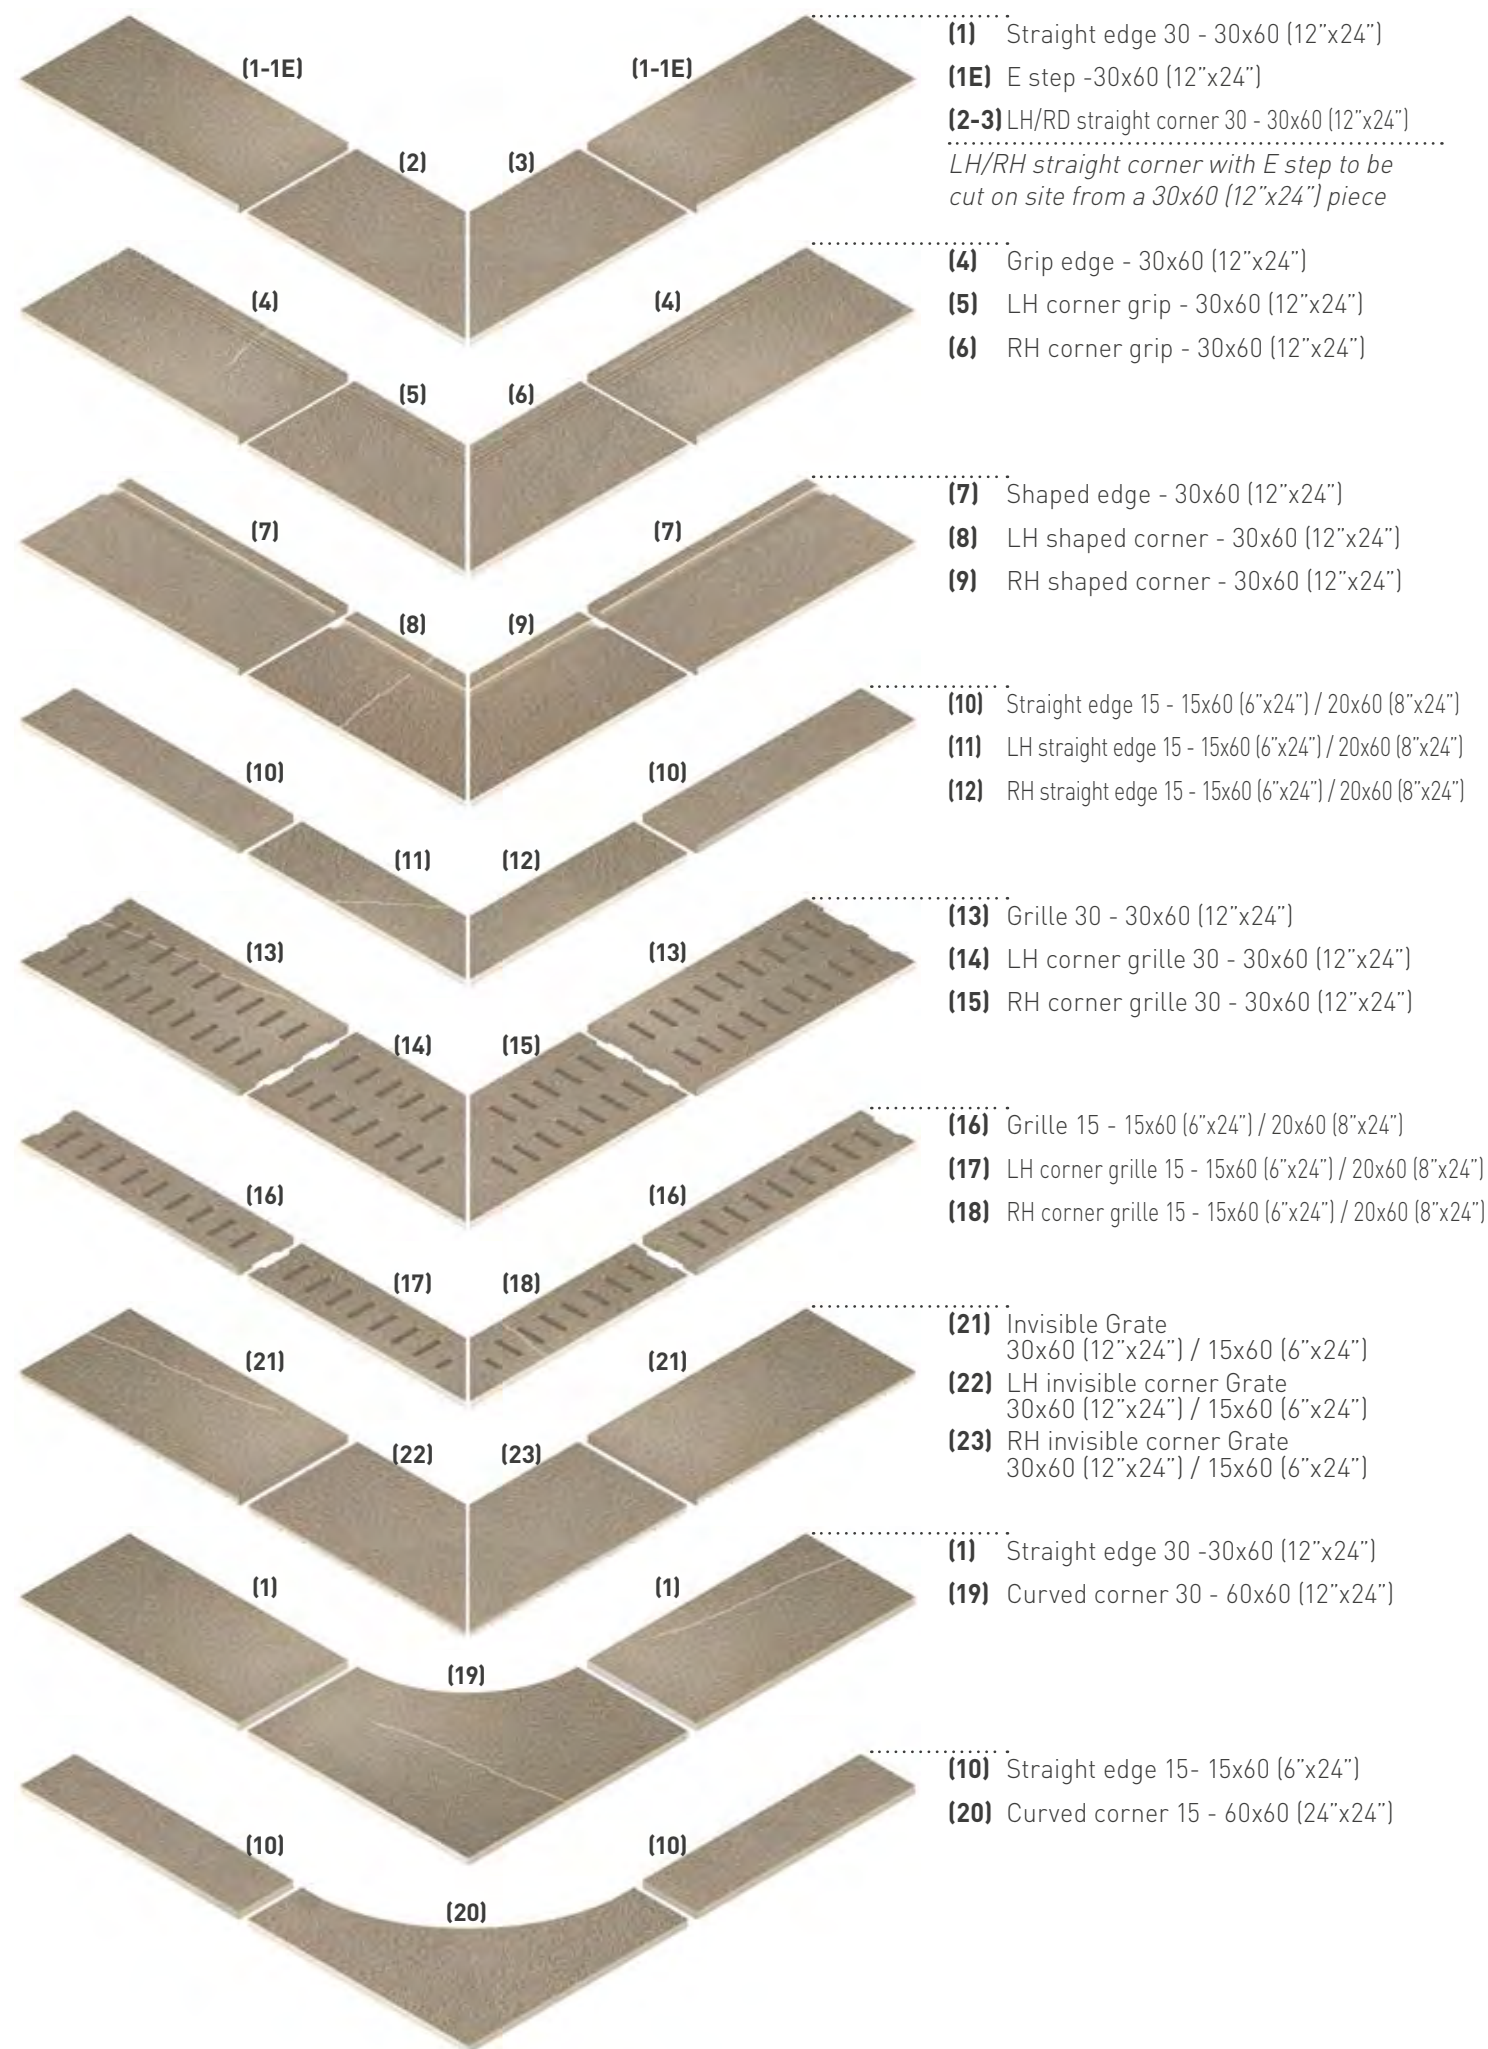

SPECIAL PIECES FOR SPECIAL POOLS.

Edges, corners, grilles. EVO_2/E™ supplies all the special pieces you need to

design the perfect pool, from every point of view.

OUTDOOR COMPLEMENTS

RIFT

RIFT is a porcelain stoneware special piece coordinated with the Ardesie, Quarziti 2.0 and Tribeca collections: a squared, rectified three-dimensional decorative piece ideal to outdoor tiling for creating walls and wall coverings. Rift comes in size 10,5x45 (4¹/₈"x18") NAT, and must be laid staggered, with no gaps, to create a balanced, harmonious visual effect. A cover element should be laid at the top of the tiling to prevent water from infiltrating between the tiles and the wall.

Mirage®

Contemporary Landscape

In 2010 Mirage® made its mark as the first international company to develop a complete range of 20 mm (3/4") porcelain stoneware for outdoor flooring and furnishing.

A system that brings innovation to the Contemporary Landscape Design world.

Today EVO_2/E™ is still the most advanced range on the market, thanks to the know-how acquired in years of research and the wide range of colours, sizes, special pieces and complements.

WARNING:

- OUTDOOR PAVINGS INSTALLED UNGLUED ABOVE THE GROUND LEVEL ARE SUBJECT TO THE ACTION OF THE WIND, WITH THE RISK, IN SOME CASES, OF BECOMING AIRBORNE. THE MANUFACTURER RECOMMENDS TO REQUIRE THE ASSISTANCE OF A QUALIFIED PROFESSIONAL IN ORDER TO CHECK THE SUITABILITY OF THE INSTALLATION SYSTEM ABOVE THE GROUND ADOPTED, IN ACCORDANCE WITH THE LOCAL LAWS AND REGULATIONS AND THE CONDITIONS OF USE. FAILURE TO DO SO COULD RESULT IN SERIOUS INJURY OR PROPERTY DAMAGE.
- A CERAMIC SLAB INSTALLED ON A RAISED PEDESTAL SYSTEM MAY FRACTURE ON IMPACT IF A HEAVY OBJECT IS DROPPED ONTO IT FROM A HEIGHT, WITH A RISK OF INJURY TO ANYONE STANDING OR WALKING ON SUCH SLAB. FAILURE TO ADHERE TO THE MANUFACTURER'S INSTRUCTIONS FOR INSTALLATION OF SLABS ON RAISED PEDESTAL SYSTEMS MAY RESULT IN SERIOUS INJURY.
- FOR FURTHER INFORMATION AND RECOMMENDATIONS CONCERNING THE INSTALLATION SYSTEMS PLEASE REFER TO WWW.MIRAGE.IT OR TO THE EVO_2/E™ 20 MM. CATALOGUE.
